

Date: 3/1/17

Wednesday Challenge Form

Group Members: Jason, Alvin, and Christian

Problem Statement: We had to make a rocket
Without any previous info of rocket science

Approach: We did a lot of math that I didn't
understand and cut cardboard to make a
prototype

Solution: Was not here the day of the results,
but there was a lot of math.

Lessons Learned: I need to learn how to build
And use math.
